DIR-657

What This Product Does

Stream multiple media content - videos, music and more - to multiple devices all at the same time. Get highest quality viewing of video content on your HD screens. Get full home coverage - every room, every floor, even outdoors¹. Get the very best wireless performance - speed and coverage. Online gaming with blazing speed - and with no lag.

HD Fuel technology lets you watch Netflix® and Vudu®, play your Wii® or Xbox® 360 online or make Skype® calls—all without worrying about the skipping or latency you might experience with standard routers. It does so by automatically giving extra bandwidth for video, gaming and VoIP calls.

¹ Maximum wireless signal rate derived from IEEE Standard 802.11 specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range. Wireless range and speed rates are D-Link RELATIVE performance measurements based on the wireless range and speed rates of a standard Wireless G product from D-Link. Maximum throughput based on D-Link's 802.11n devices
